

The Forensic Digital Diagnosis: MyMental Health Consulting

Uncovering the Ghost Effect and the Blueprint for Medico-Legal Digital Authority.

ENTITY: MMHFSP

FSP NO: 53666

STATUS: CRITICAL AUDIT COMPLETE

0 / **100**

DIGITAL SURVIVAL SCORE

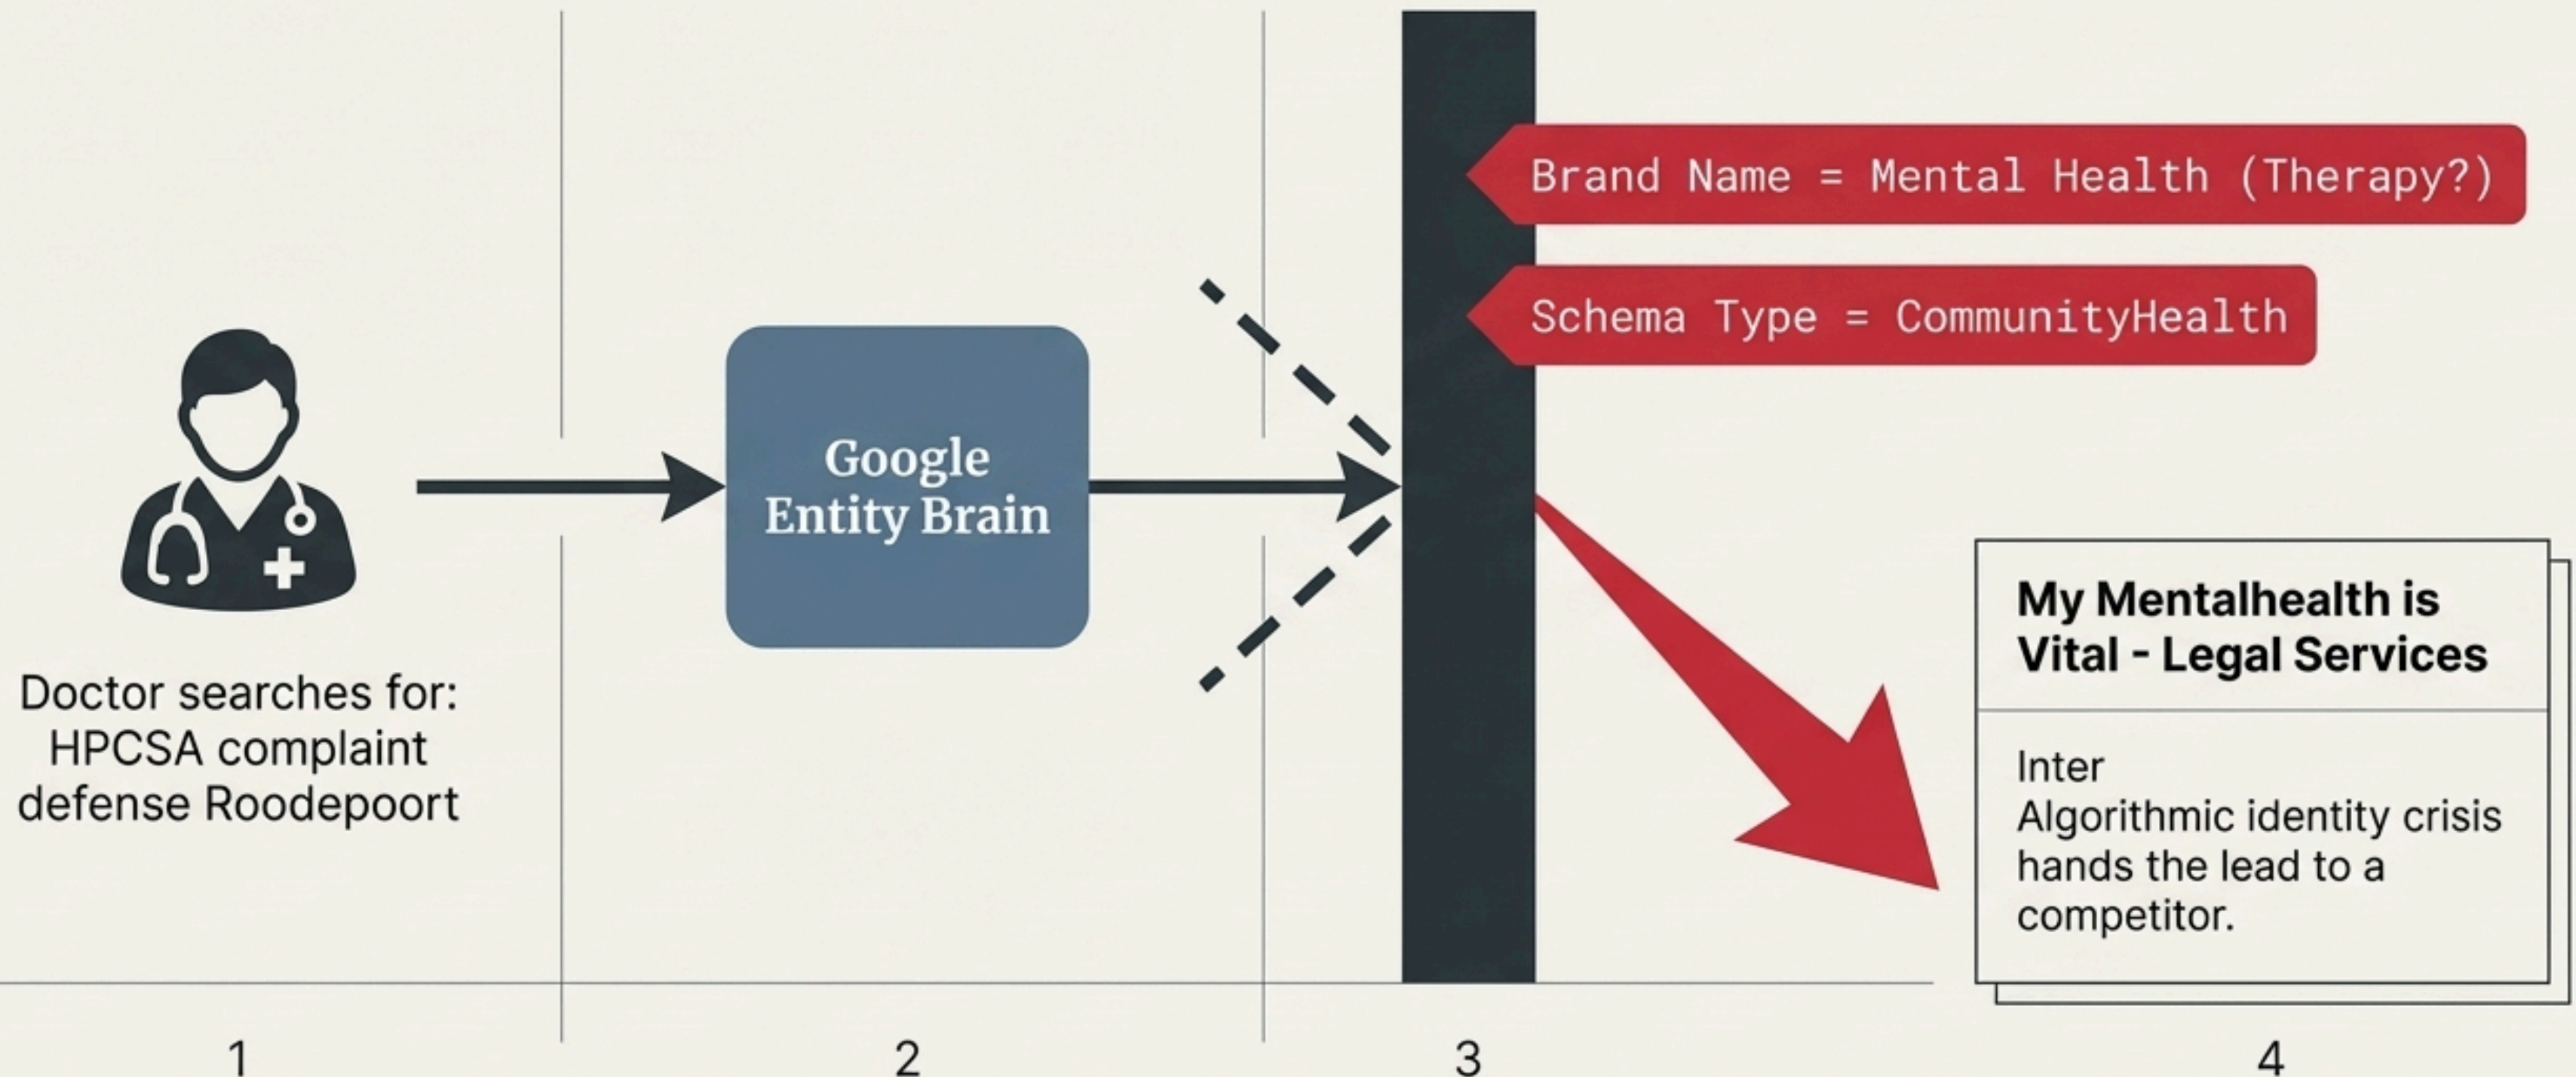

R18,500+

EST. MONTHLY
REVENUE LOSS

CRITICAL VULNERABILITY DETECTED

Your digital architecture is actively repelling algorithms. You are experiencing the **Ghost Effect**—meaning high-intent customers searching for your services are being **routed** directly to your competitors.

The Ghost Effect Actively Deflects High-Intent Clients

An Algorithmic Identity Crisis

Physical Reality (What you actually do)

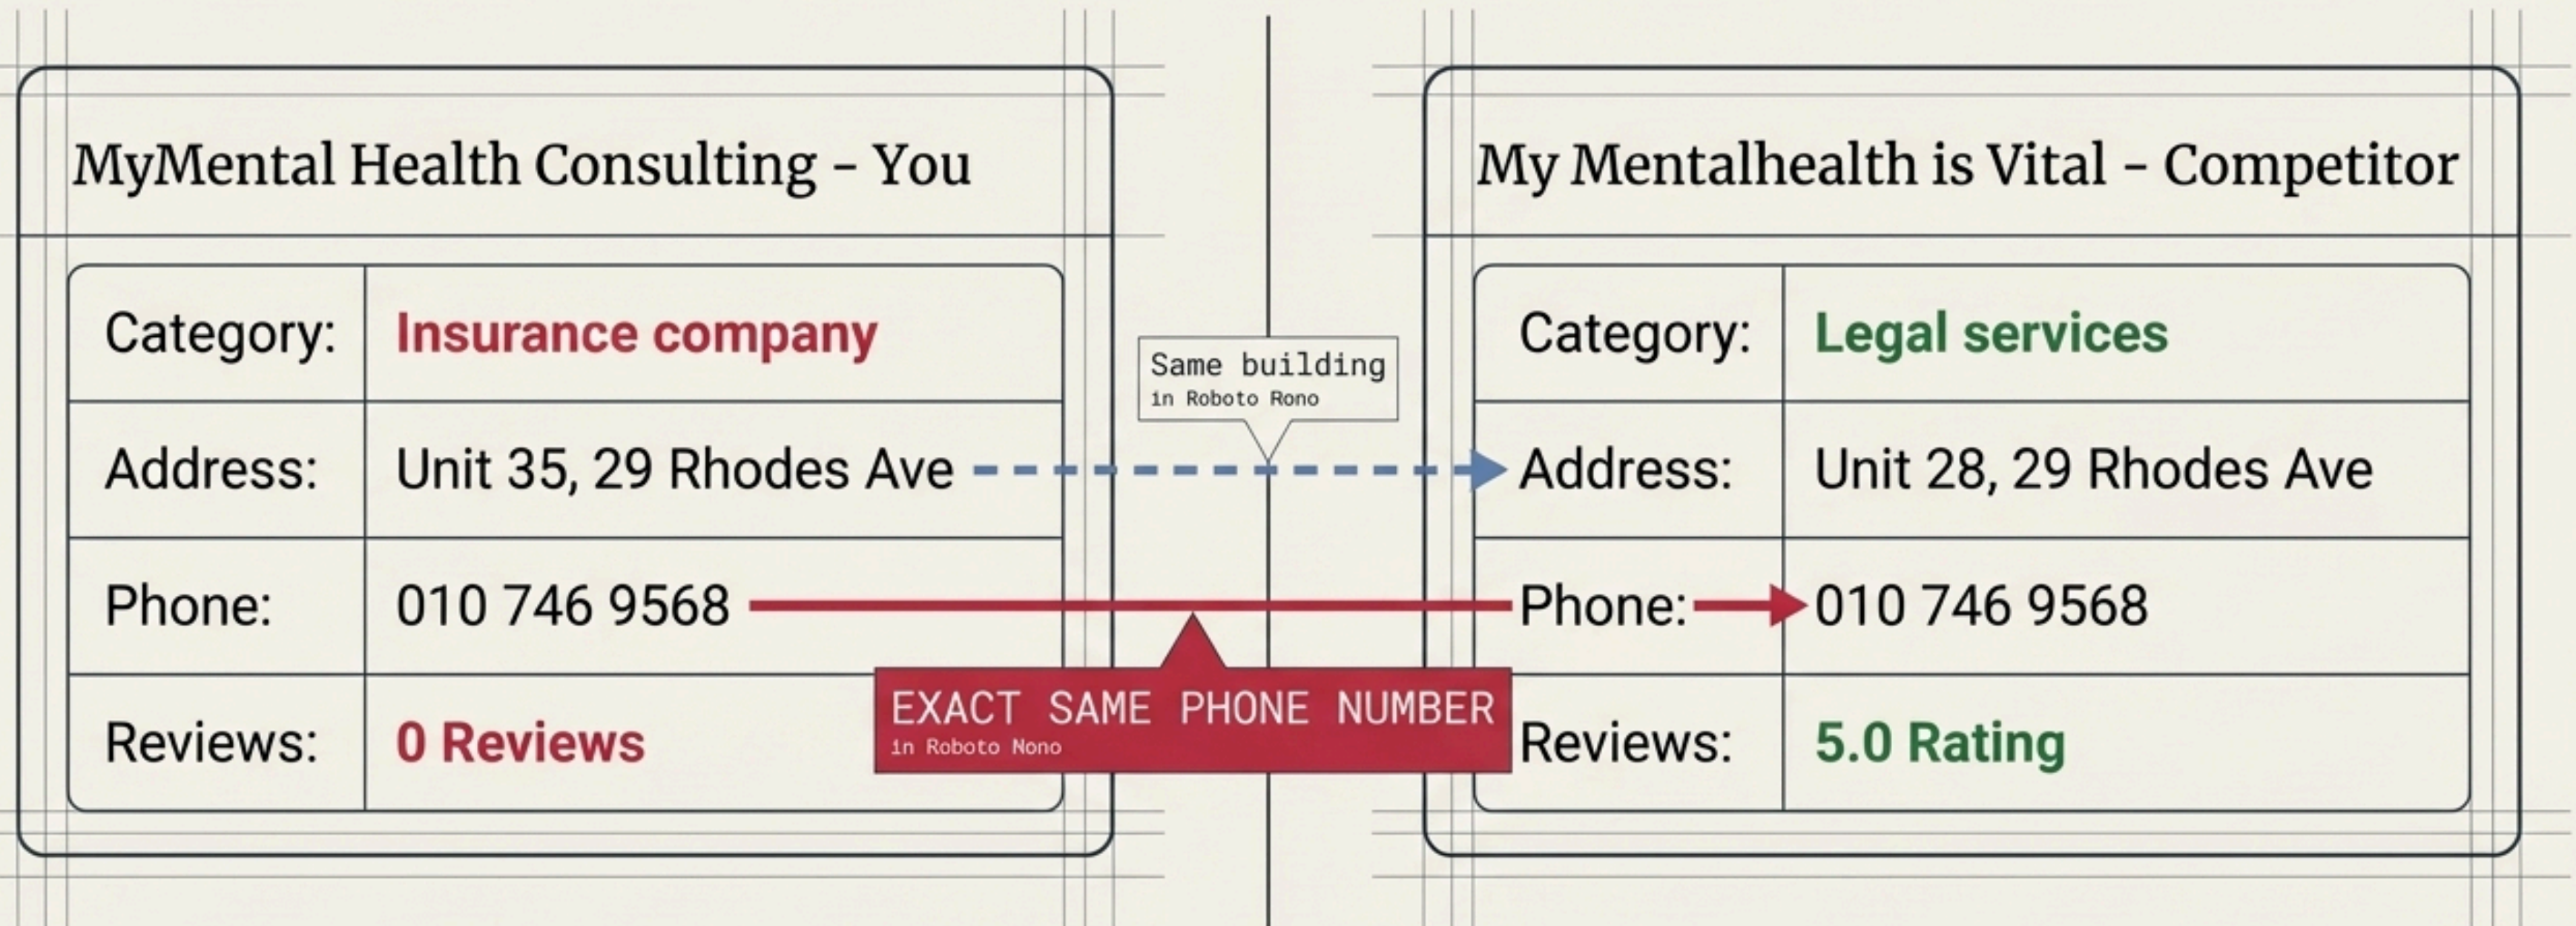

- Authorized Financial Services Provider (FSP: 53666)
- Medico-Legal Defense & Malpractice Cover
- HPCSA Disputes & Contract Reviews
- Target: Medical Practitioners

Algorithmic Reality (What Google thinks you do)

- Therapy / Psychological Counseling Center
- Generic Insurance company
- Community Health Organization
- Target: General public seeking mental health help

Search engines do not rank what they cannot categorize. Your name implies patient therapy, while your services provide practitioner defense.

Competitor Cannibalization in Local Search

Because the competitor shares your building and exact phone number, but uses the correct 'Legal services' category and has social proof, the algorithm defaults all medico-legal authority to them.

Diagnosing the Schema DNA Sequence

7 Valid Protocols Detected

Technically sound structure ready for AI extraction: Place, WebSite, ImageObject, WebPage, Person.

```
{  
  name: "lobn"  
  name: "lega"  
  type: CommunityHealth  
  consider: "..."  
  type: "ervice"  
}
```

The Critical Mutation

Swap to:

type: LegalService or
type: FinancialService

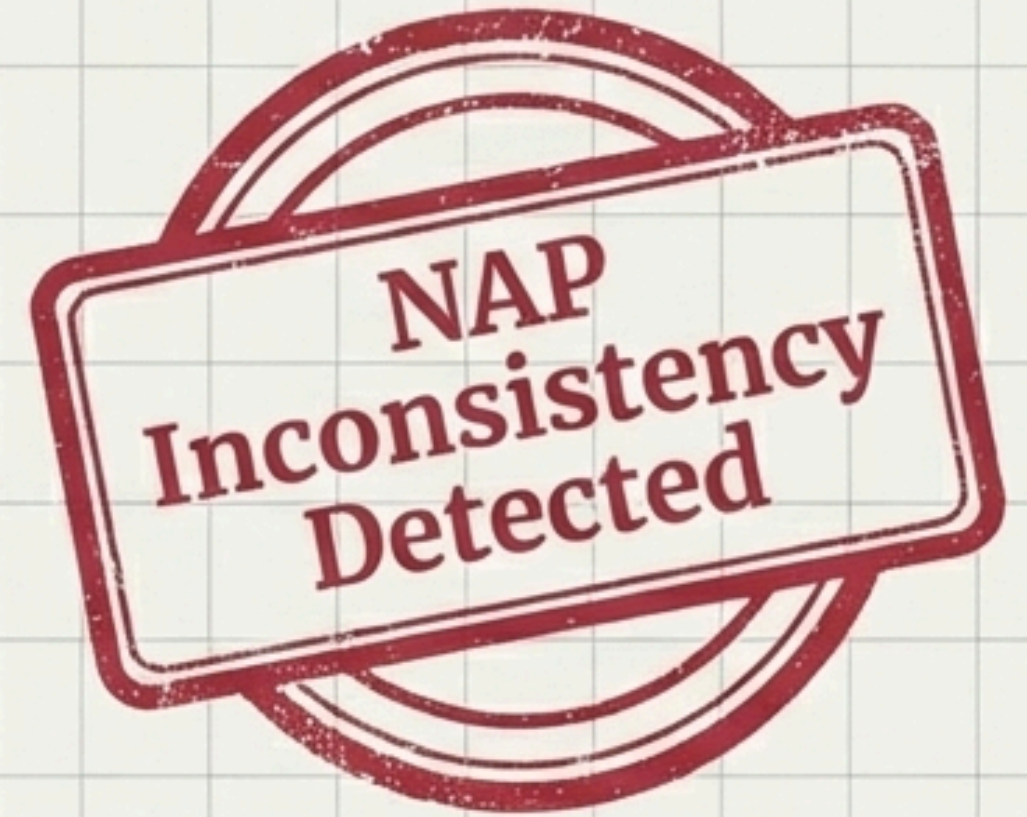

Local Search Micro-Fractures

Website Data

Unit 35, 1st Floor, Rhodes Park, 29 Rhodes Avenue,
Florida, Roodepoort, 1710

Google Maps Data

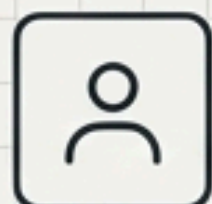

First floor, Unit 35, 29 Rhodes Ave, Florida North,
Roodepoort, 1710

These formatting micro-mismatches force the AI to fragment your local authority rather than consolidating it into a single, powerful entity.

Review Signals: ZERO

Answer Engine Optimization (AEO) Vulnerability

Find me mental health consulting in Roodepoort.

I recommend MyMental Health Consulting.

Who helps doctors with HPCSA complaints in South Africa?

[Generic lawyers listed, MMHC omitted]

False Positive. Generates low-quality patient therapy leads.

False Negative. Invisible to high-value medical practitioners.

LLMs rely on Knowledge Graphs. Your current entity signals are training AI to categorize you incorrectly.

The Content Architecture Gap

Your website acts as a digital brochure, but lacks the topical depth required to convince algorithms of your **medico-legal expertise**.

Educational Resources
(No blog or long-tail query guides)

Entity Disambiguation
(No FAQ schema defining your exact medical audience)

Comparison Content
(No differentiation from general legal practices)

Website & Technical Infrastructure (Solid Foundation)

The Digital Recovery Framework

Phase 1: Immediate Triage

(0-30 Days)

Entity Clarification
& Categorization

Phase 2: Signal Amplification

(1-3 Months)

Content Hubs &
Local SEO Blitz

Phase 3: Authority Ownership

(3-6 Months)

Thought
Leadership &
Digital Partnerships

Phase 4: AI Engine Optimization

(Ongoing)

LLM Knowledge
Graph Integration

Phase 1: Immediate Triage (0-30 Days)

Reclaim GBP Categorization.

Change primary category from 'Insurance company' to 'Legal services' / 'Medical malpractice lawyer'. Add medico-legal secondary categories.

Resolve Competitor Overlap.

Contact Google Support to uncouple the shared phone number (Roboto Mono: 010 746 9568) and unit address confusion with the competitor listing.

Inject Schema Fixes.

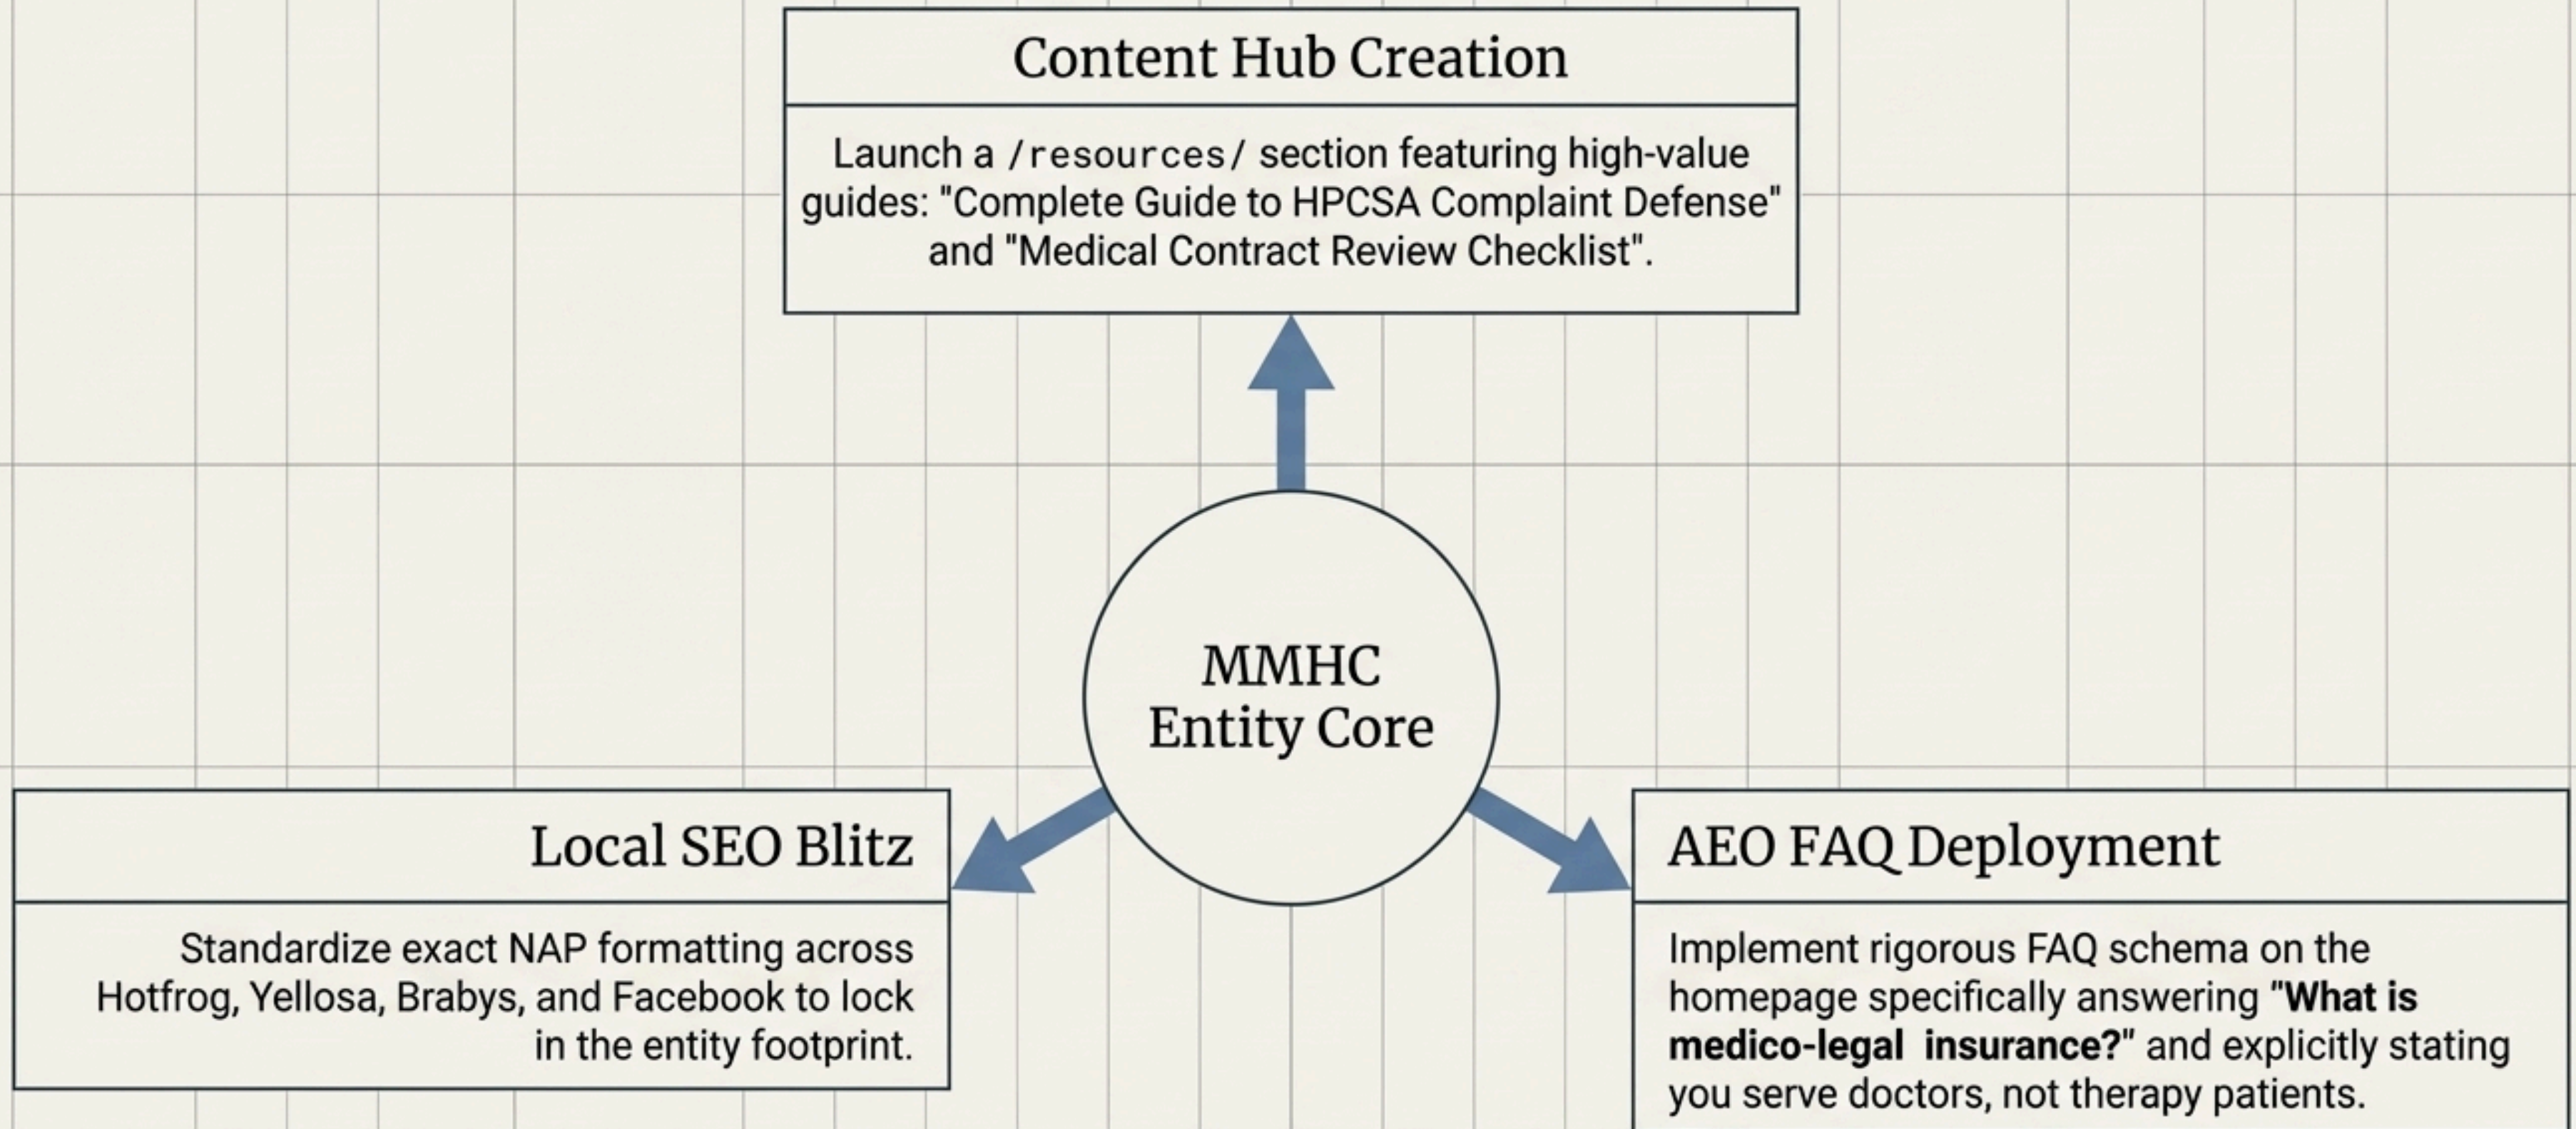

Swap Roboto Mono: CommunityHealth for Roboto Mono: LegalService. Add missing Roboto Mono: priceRange, Roboto Mono: image, and Roboto Mono: telephone to the top level of the Roboto Mono: LocalBusiness schema.

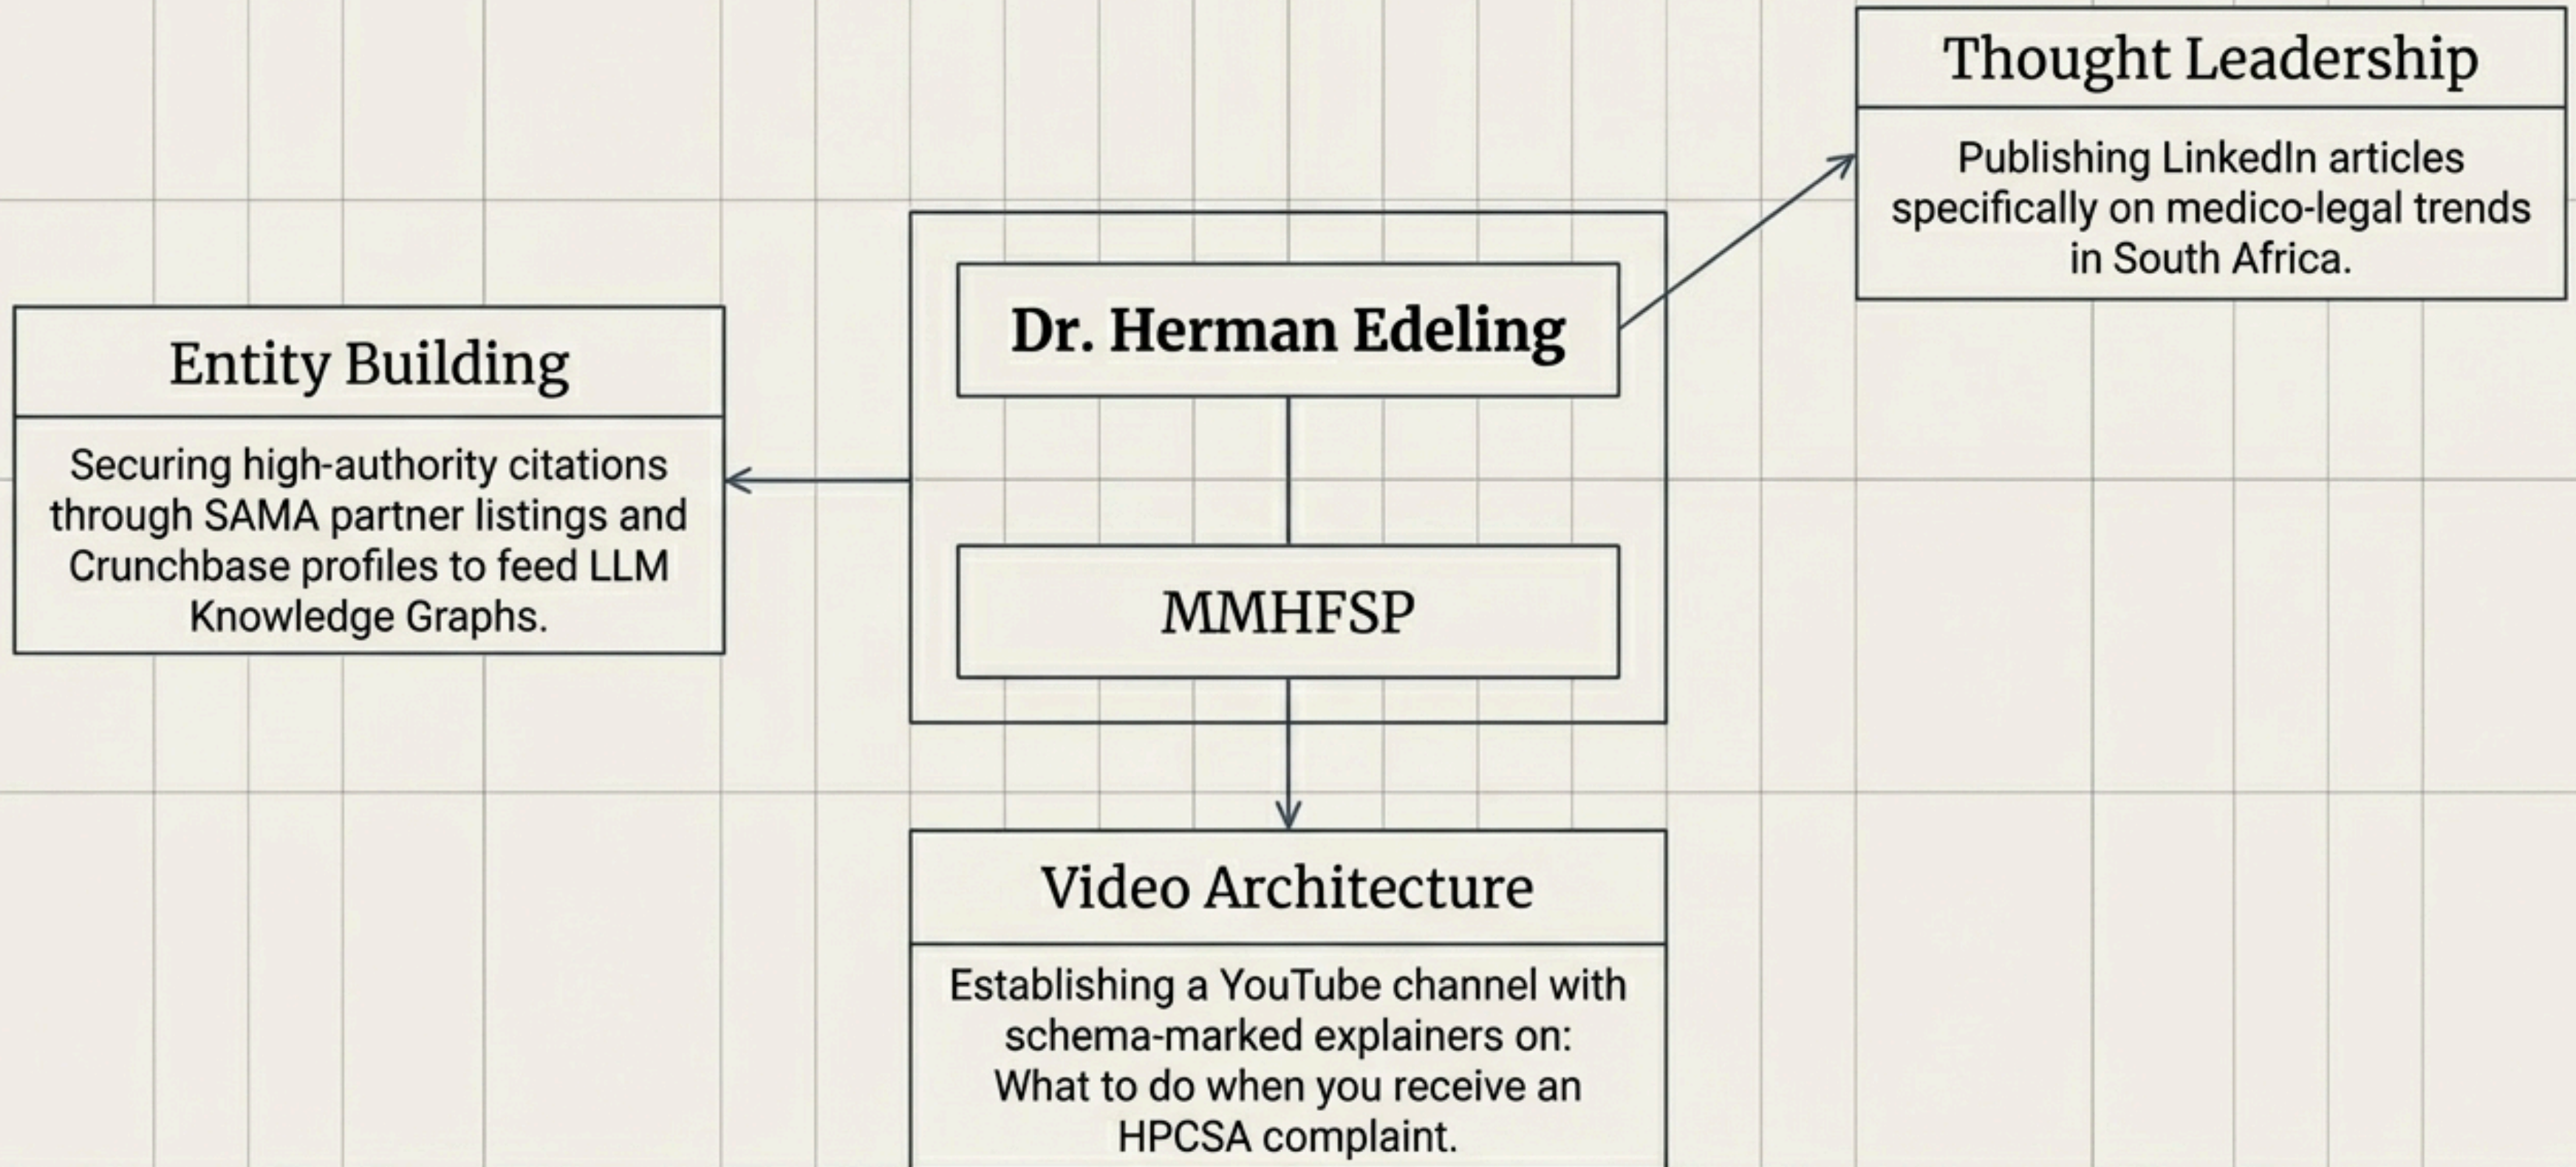

Launch Urgent Review Campaign.

Target recent medical practitioner clients to generate initial 5-star ratings to establish baseline social proof.

Phase 2: Signal Amplification (1-3 Months)

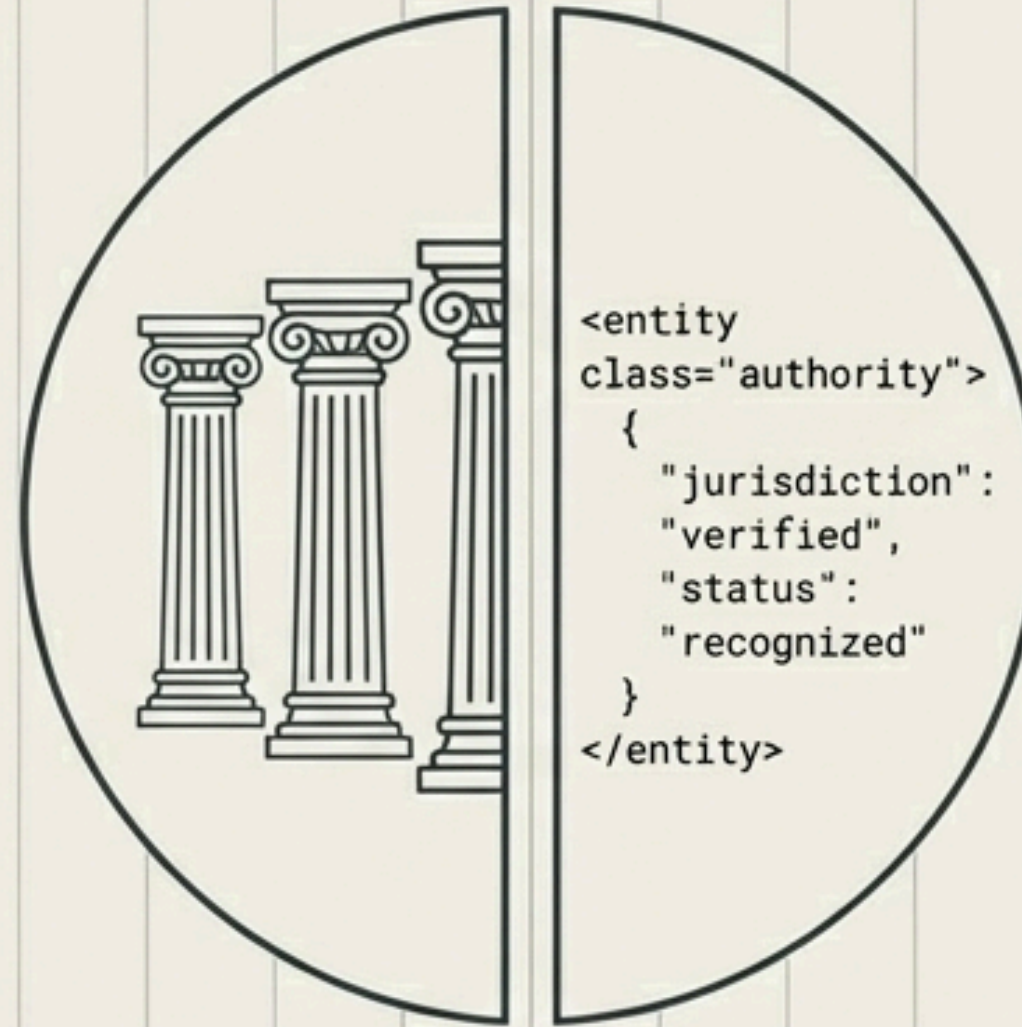

Phase 3 & 4: Long-Term Authority Ownership

Measuring the Rehabilitation: 90-Day KPIs

Metric	Current State	90-Day Target
GBP Views	Unknown/Fragmented	+300% consolidated views
Target Search: "Medico-legal services Roodepoort"	Not in Top 10	Positions 1-3
Organic Traffic	Minimal	500+ monthly sessions
Review Profile	0 Reviews	15+ practitioner reviews
Call Conversions	Leaking to competitor	20+ verified medico-legal inquiries monthly

Aligning Digital Reality with Physical Authority

From Digital Invisibility to Algorithmic Clarity.

MyMental Health Consulting possesses the physical infrastructure, the legal expertise, and the industry partnerships. Executing this strategic roadmap will finally force the digital algorithms to recognize, respect, and route the right clients to your authority.

Stop losing revenue to invisible algorithms

Don't let your competitors become the default answer for AI.
Secure your business's Digital Passport today.
